

# Hospital details

Please complete the survey below.

Thank you!

1) What is the name of the hospital you are completing this survey for?

---

2) Which health board is the hospital located in?

---

# Interface - Patient admission process to geriatrics

In this survey our intention is to look at the first 24 hours of admission, and the initial comprehensive geriatric assessment (CGA) that a patient receives. We are keen to understand that process of assessment and service configuration. When addressing the following questions, please consider the first 24 hours of a patient's admission i.e. the first place and timing of CGA specialty assessment.

Subsequent questionnaires will explore downstream inpatient and community services.

Does your hospital have a discrete area/designated beds for acute patient admissions requiring assessment by a geriatrician?

- Yes  
 No

E.g 'Geriatric Assessment Unit' or 'Acute Care of Elderly Unit'

Do you have any set age cut off for admissions to be accepted into the acute beds in the geriatric medicine department?

- No age requirement  
 65 years and over  
 70 years and over  
 75 years and over  
 80 years and over  
 85 years and over  
 Other

Age criteria for admission to acute geriatrics:

\_\_\_\_\_

Aside from patient age, do you have any set criteria for a patient to qualify for a bed under the care of specialist acute geriatric services?

- No - all referrals accepted  
 Yes - specific criteria [please detail]

Details of criteria for patient admission to care under acute geriatric medicine department

\_\_\_\_\_

Is the discrete area for acute geriatrics admissions:

- A number of beds within another general ward  
 A separate assessment unit (daytime operation Mon-Fri)  
 A separate assessment unit (daytime Mon-Sun)  
 A separate assessment unit (open 24/7)  
 Other (Please explain)

Other

\_\_\_\_\_

What do you call this area for acute geriatric admissions? e.g. frailty unit, ACE unit, GAU

\_\_\_\_\_

Where are frail older adults cared for?

- General medical ward for adults  
 Other (please explain)

Other

\_\_\_\_\_

From the emergency department (ED) how is the care of older patients transferred into that of geriatricians?

- Direct referral from ED Team  
 Selected by Geriatric Team working within ED  
 Other (Please describe)

Other

\_\_\_\_\_

Does the hospital have an acute medicine department?

- Yes  
 No

From the acute medicine department, how is the care of older patients transferred into that of geriatricians?

- Direct referral from Acute Medicine Team
- Selected by Geriatric Team working in acute medicine
- Other

Other

\_\_\_\_\_

Can a GP/ primary care refer a patient directly to your service i.e bypass the acute medicine or emergency department?

- Yes
- No

## Workforce - Staff Involved in CGA

In your hospital how many geriatrician consultant whole time equivalents do you have overall (include all sessions for this question e.g. full-time geriatrician working between geriatrics and general medicine = 1.0 WTE)

---

In your hospital how many geriatrician consultant whole time equivalents dedicated to geriatrics do you have (Please give total as WTE e.g. if full time consultant works 50% general medicine and 50% geriatrics = 0.5 WTE)

---

Considering your total consultant geriatrician workforce, how many sessions per week are assigned to acute work (i.e. assessing new patients)? (E.g. 5 consultants working 3 acute sessions per week = 15 sessions weekly)

---

In your hospital how many consultant vacancies (declared and undeclared) are there? (Please give number of vacancies as whole time equivalent e.g. vacancies for one full-time and one part-time consultant = 1.5 WTE)

---

In your hospital how many specialist registrars in geriatric medicine do you have that hold a national training number (NTN)? (Please include those on secondment or parental leave)

---

In your hospital, what is the total number of registrars currently working in geriatric medicine, please give in whole time equivalents (WTE). (E.g. 3 full-time registrars and 1 less than full-time registrar at 60% = 3.6 WTE)

---

How many staff grade geriatric medicine specialists do you have in your hospital (please give in WTE)?

---

In your hospital do you have specialist nurses - with enhanced skills in geriatric medicine distinct from bedside nursing? E.g. Complete admission clerking of patients

- Yes  
 No

How many specialist nurses are employed specifically for acute geriatric medicine?  
(please answer as whole time equivalent e.g. fulltime is 1.0 WTE)

---

What tasks do the specialist nurses in geriatric medicine perform?

---

Do you have occupational therapist input to assess admissions to geriatric medicine department within the first 24 hours?

- Yes  
 No

Are these OTs:

- Linked specifically to the acute geriatric service  
 Shared with other services (e.g. also cover units)

Do you have physiotherapist input to assess geriatric admissions within the first 24 hours?

- Yes  
 No

Are these PTs:

- Linked specifically to the acute geriatric service
- Shared with other services (e.g. also cover other units)

Do you have pharmacists who review the medication of patients within first 24h of admission?

- Yes
- No

Are these pharmacists:

- Linked specifically to the acute geriatric service
- Shared with other services (e.g. also cover other units)

Do you have social work input to assess geriatric admissions within the first 24 hours?

- Yes
- No

Does your hospital have a bed manager or flow co-ordinator that deals specifically with geriatric patient admissions?

- Yes
- No

What is the route of access for new patients based on a medical unit that need input from Psychiatry for Older Adults?

- There is a psychiatrist for older adults based in the admissions setting where they receive Comprehensive Geriatric Assessment that sees all relevant patients
- There is a referral system to request assessment by psychiatry for older adults and they would normally see referrals on the day of request
- There is a referral system to request assessment by psychiatry for older adults, the assessment would not normally happen on the day of request unless an emergency
- There is no access to a psychiatrist for older adults on site

# Comprehensive Geriatric Assessment

**During what times do consultants actively review new admissions to geriatrics? Please tick all hours that apply.**

Saturday	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sunday	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Which of the following members of staff routinely join a multi-disciplinary team meeting to discuss new geriatric patients admitted within the first 24h? (defined as staff member usually attending MDT meeting)

- Consultant or Staff grade geriatrician
- Specialist registrars
- Staff nurse
- Specialist nurse
- Auxiliary nurse
- Occupational therapist
- Physiotherapist
- Pharmacist
- Dietician
- Social worker
- Discharge co-ordinator
- Hospital at home team member
- Other

Other \_\_\_\_\_

Do you have shared notes for all healthcare professionals to write in?

- Yes
- No

What is the normal pathway for patients requiring hospital stay after initial comprehensive geriatric assessment?

- Patient stays in same clinical area which also serves as downstream bed base
- Patient moves to general medical ward but remains under care of consultant geriatrician
- Patient moves to general medical ward, no longer under the care of a consultant geriatrician
- Patient moves to downstream ward specifically for geriatric patients
- Other (please describe)

Other

# Departmental statistics

Please complete the survey below.

Thank you!

57) Do you know how many patients were admitted to your acute geriatric service in 2017?

---

58) Do you know how many patients were admitted to your acute geriatric service in 2018?

---

59) Do you know the average length of stay on the acute site for admissions to geriatric medicine (please give to nearest number of days)?

---

# Occupational Therapists for Acute Geriatrics

Please complete the survey below.

Thank you!

How many Band 6 or above OTs are employed specifically to review acute geriatric admissions within the first 24h?

---

How many Band 5 OTs are employed specifically to review acute geriatric admissions within the first 24h?

---

Which patients do the OTs see?

- All patients admitted to acute geriatrics
- The OTs decide which patients require input
- The OTs only see patients that medical or nursing staff specifically refer to the team
- Other - please describe

Other

---

---

**At which times are OTs on duty in the ward to review new patients admitted to geriatrics, please select all hours during which an OT is available? (Please only include OTs on duty in the ward, 'on-call' cover is included in a separate question)**

If you do not have an on duty PT specifically for acute geriatrics out of hours/ at weekends, is there any alternative arrangement? (e.g. PT can be contacted by pager at weekend) Please detail any additional 'on-call' cover not included in table above and the times this is available.

---

# Emergency Department In-Reach

Please complete the survey below.

Thank you!

Do you have a team that can provide a comprehensive geriatric assessment within the Emergency Department?

- Yes  
 No

Who is involved in this team?

- Consultant geriatrician  
 Specialist registrar in geriatrics  
 Specialist nurse for geriatrics  
 Occupational therapist  
 Physiotherapist  
 Pharmacist  
 Other (please specify)

Other \_\_\_\_\_

How are patients that would benefit from a CGA identified?

- Referral from ED team to 'in-reach' CGA team by bleep/phone  
 'In-reach' CGA team are based in ED and self-select appropriate patients  
 'In-reach' CGA team identify potential patients from patient tracking system  
 Other (please describe)

Other \_\_\_\_\_

---

---

Please describe briefly what the 'in-reach' team do as part of a CGA for an ED patient:

\_\_\_\_\_

# Linked Services

Please complete the survey below.

Thank you!

While this survey focuses on the early assessment of patients admitted to geriatrics, we wanted to ask a few questions to help understand other facets and demands of the acute service.

This information will also help to inform the detailed survey development for this area in the future.

Does your acute geriatric service have any options for follow-up on discharge?

- Yes  
 No

Please briefly describe the follow up provisions on discharge (e.g. phone-call by community geriatric nurse specialist) and whether this is for every/ selected patients

---

Does your acute geriatric service have any options for assessment of patients at home as a first step or means to avoid admission (i.e. 'hospital at home')

- Yes  
 No

Please briefly describe your 'hospital at home' model and the scope of this service (i.e. patients seen per day)

---

Does your acute geriatric service provide regular scheduled input into orthopaedics?

- Yes  
 No  
 N/A - no orthopaedic department

Please briefly describe your ortho-geriatric service including days of operation.

---

Does your acute geriatric service provide regular scheduled input into surgical care of older people?

- Yes  
 No  
 N/A - no surgical unit at this hospital

Please briefly describe your surgical liaison service for older people

---
